A degree in Business Administration develops you into an open-minded, responsible citizen with skills to carry you throughout your career. You can travel the world, start your own successful business, and inspire those around you.

In this program, you will practice interpersonal skills, professional judgment, and time management. In addition, you will master many tangible skills involving areas such as software, finance, marketing, and accounting. In short, the Business Administration degree will teach you to become a leader in any industry.
